“ *My big brother Terry was much older than I, he was 18 when I was born. I don't have a lot of memories of him when I was little but once I turn about 12, he moved by us. I thought he was the coolest, he took me with him fishing, hunting, and even to the bar (which probably led to my love of celebrating). Even after I moved away, we made sure to go out when I visited home. Terry was always fun. We never realize how many good memories we have with someone until they're gone. I'll always cherish those memories, and I miss him already. Rest in peace big brother, I love you ~ Anita*
